

Appl. No. : 10/686,063  
Filed : October 15, 2003

JUL 20 2006

## REMARKS

With this amendment, Claims 56-110 are pending. Applicant would like to draw the Examiner's attention in particular to new Claims 107-110, as compared to Claims 1, 3, 5 and 7, respectively, of U.S. Patent Publication No. 2005/0159650, published July 21, 2005 (Application Serial No. 11/016,549, filed December 17, 2004). Applicant takes no position at this time as to whether the newly added claims are substantial copies of the claims of U.S. Patent Publication No. 2005/0159650, but merely identifies these claims to the Examiner in an abundance of caution. *See* MPEP 2001.06(d).

Applicant submits that these new claims read on at least Species IV identified by the Examiner in parent Application Serial No. 10/361,887, on May 9, 2003. Applicant respectfully requests entry of this amendment before examination by the Examiner on the merits begins.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON &amp; BEAR, LLP
